

The Wild Life

DRIVE YOUR AFRICAN ADVENTURE

The Wild Life Africa is a small, but passionate company with a deep sense of belief about what we offer and the value that it brings to our clients. We offer our clients the ability to experience the best of Zambia and the southern African region on an intimate and affordable basis through our customised 4x4s, mobile safaris and hosted adventure trips.

We believe that travel in the African wild provides some of the best life experiences that money can buy. It transports us into new environments that opens our eyes to a wider world, it gives us perspective separate from our day-to-day lives, and helps us distill the valuable from the less-so. Travel in Africa helps us step out of our everyday life into another realm where things are new, intriguing, challenging and filled with wonder.

We strive to offer experiences that provide our clients with those rare, magical moments where life comes clear, the things that matter rise to the top, and where things feel as they are supposed to be.

We help our clients connect to the soul of travel in Zambia and the region. What are the things that you remember from your travels long after you've returned to normal life? These are the memories that we want you to create during your time with us.

Zambia is a magical, under-the-radar destination waiting to be discovered by intrepid visitors who love close-up wildlife experiences, stunning landscapes, intriguing people, cultures and history, and The Wild Life Africa is excited to be your host and guide in fulfilling, engaging and wonder-filled travel to southern Africa.

"Africa changes you forever, like nowhere on earth. Once you have been there, you will never be the same. But how do you begin to describe its magic to someone who has never felt it? How can you explain the fascination of this vast, dusty continent, whose oldest roads are elephant paths? Could it be because Africa is the place of all our beginnings, the cradle of mankind, where our species first stood upright on the savannahs of long ago?"

- Brian Jackman, journalist and author

"In Africa you have space...there is a profound sense of space here, space and sky."

- Thabo Mbeki, former President of South Africa
